SHUTTERS

BROCHURE

Want something unique, sustainable, with quality to last a lifetime? You've come to the right place.

Bringing you the highest quality, sustainable shutters. Straight from our factory to your home.

MYT Shutters are designed to last. Their excellent durability and simple operating methods make them a lifetime contribution to any interior or exterior in your home or business. Shutters bring all the benefits of full control over light, privacy and airflow, while adding elegance and luxury into your space. They are the perfect window covering solution for practically any size or shape window.

Explore the different possibilities in this brochure, or get in touch with one of our specialists for tailored advice. For more information, visit [mytshutters.com/uk](https://mytshutters.com/uk).

## Designer colours leading the latest trends in the industry

The colour palette of your interior will determine the setting and ambiance of your home, so choosing the right colour for your shutters is essential. At MYT Shutters we always have the latest trendy colours available. We only use the highest quality waterbased paints and stains to achieve the best finish.

Whether you choose a rich black for a modern look, or an oiled Cedarshutter for a natural and elegant style, our MYT specialists can advise you on all the options available to you.

- Only waterbased paints with low VOC, safe for asthmatics and pets
- 30+ standard paint and stained colours
- Hampton style beach look with our Paulownia Rustic series
- Custom colours available on request
- 5 year warranty on our paint finish

## Timber Shutters

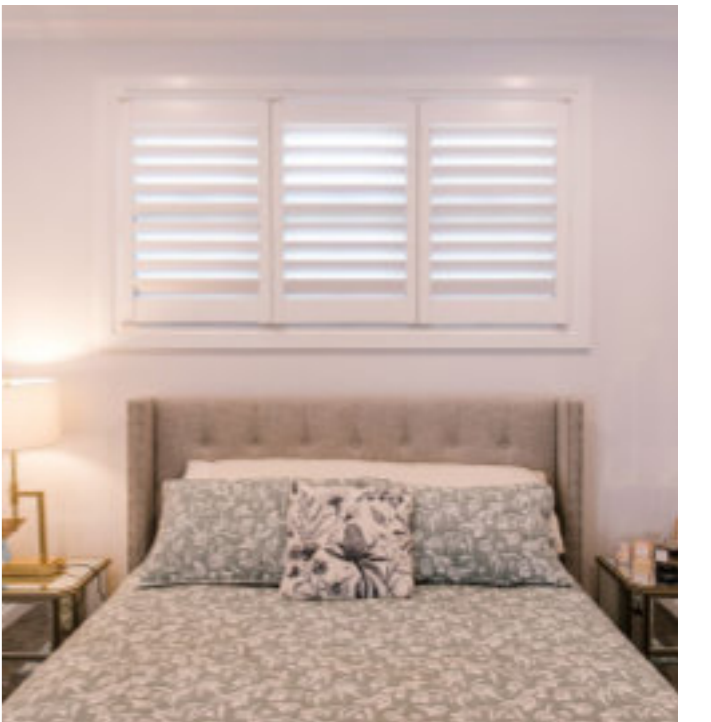

Our timber collection consists of Basswood, White Teak, Western Red Cedar and Paulownia. We only use sustainably sourced, lightweight timber, never any MDF or 'Engineered wood'. Each of them has their own unique characteristics and charm and are the most versatile in terms of colour, design and shaped options. The benefits are boundless. From a hardwood such as Basswood with a straight and fine grain, or a Rustic Paulownia for a stressed beach or Hampton style look, to a prestigious Cedar with its natural warm colours. Our timber shutters have excellent thermal and acoustic properties and remain the most popular choice of shutters for everyone.

## Timber Features

- Single or Dual Closure
- Paulownia, Basswood, Western Red Cedar, White Teak
- Elliptical blade in 63, 76, 89 en 114mm
- Heritage Shutter in White Teak or Cedar with Beveled blade
- Supatilt, Clearview, Centre Tiltrod, Offset Tiltrod
- Reinforced Mortice and Tenon joints (world's most stable)
- Engineered Stiles to resist warp or bowing
- Huge range of Standard Framing and Custom Framing also possible

## Polymer Shutters

Transform your home with our exclusive Polymer shutters. MYT Shutters create our very own Polymer formula, and used in combination with our re-designed, patented Aluminium core that makes our Polymer shutter the most dimensionally stable in the world. Our own formulated coating makes our Polymer shutter waterproof, resistant against warmth and UV.

MYT's Polymer is visually indistinguishable from Timber, and will add elegance and timelessness to any room in your home.

Easy to care for, and great for areas with high humidity such as bathrooms or kitchens.

## Polymer Features

- Patented 40mm stile, and 51mm stile
- Single or Dual Closure Blades
- Ecosmart blade sizes: 63, 76, 89, and 114mm
- Co-extruded Reinforced blades and stiles with MYT Aluminium core
- Reinforced Mortise and Tenon joints (world's most stable panel)
- Resting plate to protect your frames from scratching when opened
- Formulated from virgin materials (non yellowing)
- Water resistant, Termite proof and hypoallergenic
- Fire retardant
- Certified non-toxic. EU REACH compliant
- 5 year paint and 15 year structural warranty
- 30 year warranty on our Polymer material

## Aluminium Shutters

Strong, durable, resistant to water and high temperatures. Our Aluminium shutters are perfect for any outdoor space. They are robust without compromising on elegance or style. Our exclusive powder coating finish makes them scratch resistant, and resistant to the harshest weather conditions. Custom made with precision and care, our Aluminium shutter range adds an industrial, yet classic look to any home or business.

## Aluminium Features

## MLRS Pergola

Extend your living space outside with the motorised louvre roofing system, or the MLRS. The MYT MLRS consists of rotating Aluminium louvres which are operated by a remote control. You can control how much light or shade you create for your outdoor space. With the automatic rain sensors the blades will fully close and our special water drainage channel ensures you will stay dry. Fully customisable, to ensure you are always protected from the elements.

- Remote controlled
- LED Lighting and/or spot lights
- Integrated water drainage
- Wind, rain, snow sensor
- 2 standard colours: White and Monument (dark grey)
- Legs fully customisable, attached to house or no legs

## Custom made, top quality sustainable shutters

Choosing MYT Shutters means you have made a conscious decision based on overall quality and service, knowing we will provide you with the best, most sustainable product on the market. We offer a 15 year structural warranty, along with a 5-10 year paint warranty on all of our products because we believe in the quality we deliver. Our 100% focus on shutters allows us to be completely dedicated in providing you with the perfect window covering solution, always custom made specifically for you.
